Started in 1981, the Interagency Council of Norristown's mission is to improve the delivery and access to human services through the personal contact of human service workers and the free exchange of information. ICN convenes monthly meetings open to all human service organizations, individuals and providers serving Central Montgomery County to 1) network with other providers, 2) get updates on local resources and services, and 3) offer timely professional development workshops. Member organizations are listed and promoted on ICN's Annual Membership Connections Guide. For more info and to join ICN:
